CS1050 Assignment 7 (50 points)

Please complete the program below and submit the java source code file (.java file) on Canvas.
Your program will be graded based on the correctness by running and testing. Please carefully run and test your program before turning it in. The code that is not compiled will receive ZERO credit.

Write a program called **First_Last_Check_Writer** that generates a simulated paycheck. The program should ask the user to enter the date, the payee's name, and the amount of the check. It should then ask if the user want to preview the check format.
IF YES: display the simulated check with the dollar amount spelled out and the note sentence says "Printed with preview" as shown below to the console and then write it to an output text file call First_Last_Output.txt

```
                                     Date: 07/14/2022
Pay to the order of: Doremon        $1,000.00
One thousand and 0 cents
Note: Printed with preview.
```

IF NO: write a simulated check with the dollar amount spelled out, as shown below to an output text file call First_Last_Output.txt

```
                                     Date: 07/14/2022
Pay to the order of: Doremon        $1,000.00
One thousand and 0 cents
```
